

# Bring cloud-optimized SD-WAN to every branch

## Connect and protect every branch from the cloud

Keeping every branch connected and secure shouldn't require costly MPLS contracts. Cisco Meraki SD-WAN replaces rigid circuits with intelligent, resilient connectivity built for the apps you rely on.

Let Momentum design, deploy, and manage Meraki SD-WAN end-to-end, bringing sites online fast, enforcing security policies, and monitoring performance 24/7. You get the full value of Meraki from day one without overwhelming your IT team.

### HIGHLIGHTS

Bring cloud-optimized SD-WAN to every branch

Simpler IT management from one cloud dashboard

Secure, resilient connectivity with dual uplinks and LTE failover

Optimized app performance with app-aware routing and traffic shaping

Faster time-to-value with expert design and preconfigured templates

24/7 monitoring and support from Momentum's experts

## Bring secure, resilient SD-WAN to every branch

## CISCO MERAKI SD-WAN

# The smarter way to connect and protect every branch

Cisco Meraki SD-WAN is built for distributed businesses that need secure, reliable connectivity without the complexity of traditional WANs. With Momentum managing the solution, you get faster time-to-value and peace of mind from day one.

## Meraki Dashboard

Manage networking and security in one place with full visibility across branches, apps, and users.

## Resilient connectivity

Dual uplinks and LTE backup deliver always-on connectivity across every branch in your network.

## Integrated security stack

NGFW, IDS/IPS, AMP, and content filtering built directly into every MX appliance you use.

## Zero-touch deployment

Preconfigured MX appliances and cloud templates bring new locations online in minutes.

## SD-WAN intelligence

Application-aware routing and traffic shaping keep SaaS and cloud apps performing at their best.

## Analytics and insights

Real-time monitoring of app usage, performance, and security events for smarter decisions.

## Why Momentum?

**750+**CARRIERS AND  
SERVICE PROVIDERS**36K**ENTERPRISE  
LOCATIONS SERVED**8,000+**MANAGED NETWORK  
SOLUTIONS

## Keep users connected and secure from anywhere

Don't just deploy Cisco Meraki, unlock its full potential with Momentum.
